## About Our Angels Charity & Support Group

Founded in 2009, Our Angels is a charity dedicated to supporting families through the heartbreak of miscarriage, stillbirth, and neonatal loss. We provide a safe space for those affected, offering emotional support, remembrance initiatives, and practical help.

Our mission extends beyond direct support. We actively work to improve bereavement care in hospitals by funding memory boxes, specialist midwife training, and improvements to hospital facilities.

Our fundraising efforts have already contributed to significant projects, such as the creation of the Bluebell Suite, a dedicated space for families experiencing loss. This year, we are raising funds for a new portable ultrasound scanner for use in both the antenatal and labour wards of the Harrogate District Hospital Maternity Department. This will upgrade the current unit and will give a more accurate and detailed insight into the health of the unborn baby and the health of the mum-to-be. It will also give priceless reassurance to parents who have already faced a heartbreaking loss.

Every donation and fundraising effort helps us continue this vital work, ensuring that no one faces baby loss alone.

We are incredibly grateful for your consideration in raising vital funds for Our Angels. Your generosity and dedication allow us to continue providing essential support and making a real difference in the lives of bereaved families.

**Thank you for being part of our mission.**

HELP US TO DELIVER SAFER BEGINNINGS

At Our Angels Charity, we're on a mission to support families through pregnancy and baby loss. This year, we're focused on raising funds for our scanner appeal for portable scanning unit for Harrogate District Hospital's antenatal and labour wards.

This mobile ultrasound unit will provide vital support for expectant parents, especially those experiencing pregnancy after loss. It offers safety, reassurance, and the ability to make informed decisions, ensuring the best possible outcomes for mothers and babies.

“A new portable ultrasound scanner would be invaluable in supporting the care and practice within our maternity unit at Harrogate and District NHS Foundation Trust. With this incredibly generous funding, this ultrasound machine will enable our maternity unit to provide timely, accurate, and compassionate care on both our delivery suite and in the antenatal clinic. It will allow for immediate assessments, ensuring that pregnant people receive the necessary monitoring and reassurance during critical moments.

This new ultrasound scanner will be especially beneficial in supporting a Rainbow or Pregnancy after Loss clinic, offering a vital tool for the midwifery and obstetric teams to provide bedside ultrasound scans to women who are pregnant following a previous baby loss. This will offer immediate reassurance and personalised care. It will also not only support with clinical decision making, but also provide emotional support to families navigating the complexities of pregnancy after loss, ensuring they feel seen, supported, and confident in the care they receive. This funding is critical in supporting families during a sensitive and challenging time.”
